PROFESSIONAL SUMMARY

A Bachelor of Computer Science (Hons.) Multimedia Computing graduate with experience in web development, mobile application development, database management, and multimedia production. I possess strong problem-solving, teamwork, and technical skills, along with a willingness to learn and adapt to new technologies. Seeking an opportunity to contribute technical knowledge and creativity in a dynamic IT-related environment.

EDUCATION

Bachelor of Computer Science (Hons.) Multimedia Computing 2024 - 2026

Universiti Teknologi MARA (UiTM) Shah Alam
CGPA: 3.58

Diploma of Computer Science 2021 - 2024

Universiti Teknologi MARA (UiTM) Sarawak Kampus Samarahan 2
CGPA: 3.69

PROFESSIONAL EXPERIENCE

Kolej Komuniti Sandakan, Sabah Mar 2026 – Jul 2026

Internship as an ICT Assistant (ICT Unit)

- Assisted with ICT-related technical support, troubleshooting, and equipment setup for staff and unit activities.
- Developed a prototype asset application website using Google Sites with embedded HTML, CSS, and JavaScript to streamline departmental asset requests.
- Assisted as co-editor for an educational video production for Edola 2026 on the topic “Bahaya, Hazard & Risiko”, contributing to video editing skills.
- Designed posters and digital materials for institutional activities and supported various ICT and multimedia tasks.

Kolej Komuniti Sandakan, Sabah Sep 2023 – Mar 2024

Internship as an ICT Assistant

- Assisted in maintaining computer labs, troubleshooting hardware/software issues, and supporting staff and students with necessities related to ICT.
- Helped implement and manage LAN network systems and ensured smooth daily operations.
- Impact: Enhanced system reliability, reduced technical downtime, and improved user support efficiency for academic use.

PROJECTS

CycleCare: Smart Health Assistant for Menstrual Irregularities based on AI (Final Year Project)

- Developed a mobile application during Final Year Project that recommends activities to help women with irregular cycles achieve a normal cycle. This project includes computer science principles including mobile development, artificial intelligence, and user-centric design.

Asset Application Website Prototype (Internship Project)

- Developed a web-based platform using Google Sites, HTML, CSS, JavaScript, Google Apps

Script, and Google Sheets to centralize departmental asset applications and automate data collection, reducing reliance on manual Excel spreadsheet submissions.

eDOLA 2026 Educational Video Production – EduVision Category

- Collaborated in the production and editing of an educational video titled “*Bahaya, Hazard & Risiko*” for eDOLA 2026 as a co-editor. Contributed to video editing, content organization, visual presentation, and coordination with the production team to deliver an engaging educational video.

ACTIVITIES

Secretary, AI Ethics Awareness Kit Exhibition at FSKM, UiTM Shah Alam (SULAM Project)

- Managed event coordination, documentation, and communication to ensure a smooth and successful ceremony with participation of UiTM and international students.

MARA Alumni at MRSM Tun Mohammad Fuad Stephens, Sandakan, Sabah

- Participated in alumni outreach by giving talks on career paths and current academic journeys to inspire and guide students.
